X-ray Crystallography Facility Director

The Department of Chemistry at The University of North Carolina at Chapel Hill, http://www.chem.unc.edu/, seeks applicants for an X-ray crystallographer to lead the X-ray core facility and implement related courses with an anticipated start date of June 1, 2018. We seek applicants with a Ph.D. in Chemistry, Physics, or a related discipline. Demonstrated experience in crystallographic studies or equivalent research. Three or more years experience operating and maintaining modern diffractometers, mounting single crystals, and solving small molecule data sets. The position will also involve classroom and laboratory instruction, including opportunities to develop courses on crystallography. Experience in course development and teaching is expected. Candidates with strong managerial and communication skills, as well as leadership and collaborative experience, are sought. Salary will be commensurate with experience. Interested candidates should apply online at http://unc.peopleadmin.com/postings/135967

The University of North Carolina at Chapel Hill is an equal opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to age, color, disability, gender, gender expression, gender identity, genetic information, national origin, race, religion, sex, sexual orientation, or status as a protected veteran.
