

The **Department of Chemistry and Biochemistry at California State University San Bernardino** invites applications for **tenure-track assistant professor**, beginning in Fall 2018 in the area of **biochemistry**. Candidates are expected to provide stimulating, innovative, and equity-based teaching focused on student success in general and introductory chemistry in addition to the lower and upper division courses in biochemistry, and to develop and sustain an externally funded, independent research agenda. Research in all areas of biochemistry is appropriate; expertise in biomaterials, biomolecular modeling, bioinformatics or bioanalytical chemistry would complement existing research capabilities, and could lead to research collaboration and/or course development. Materials to be submitted include a curriculum vitae, a statement of teaching philosophies and strategies, a statement of research accomplishments and goals, transcripts, and three letters of recommendation. Application materials are to be submitted online through <https://www.governmentjobs.com/careers/csusb/jobs/1801088-0/chemistry-biochemistry-assistant-professor-tenure-track>. References should email confidential letters of recommendation to [facultyrecruitment@csusb.edu](mailto:facultyrecruitment@csusb.edu). Review of complete applications will begin on Oct. 16, 2017. Questions may be sent to [kcousins@csusb.edu](mailto:kcousins@csusb.edu), and further information is available at [chem.csusb.edu](http://chem.csusb.edu). California State University San Bernardino is a Hispanic Serving and Minority Institution, and a supportive Affirmative Action/Equal Opportunity Employer with a strong commitment to diversity. The student body of approximately twenty thousand is 63% Hispanic with a majority being the first generation in their family to attend college. There are approximately 350 chemistry majors, with a graduating class that is 34% Hispanic. To help us serve as role models, we strongly encourage women and members of underrepresented groups to apply. We seek to attract an active, culturally and academically diverse faculty of the highest caliber.
