Harvard University
Tenure-track faculty position in Bioelectronics

The Harvard John A. Paulson School of Engineering and Applied Sciences seeks applicants for a position at the tenure-track level in Advanced Bioelectronics, with an expected start date of July 1, 2018.

We seek candidates who have a strong research record in the area of advanced bioelectronics, optics, or magnetics, including novel classes of materials and devices, for use in biomedical applications. Candidates will develop an interdisciplinary research program and contribute to teaching and curriculum development at both the undergraduate and graduate level. We particularly encourage applications from historically underrepresented groups, including women and minorities.

Candidates are required to have a doctorate or terminal degree in Biomedical Engineering, Electrical Engineering, Materials Science and Engineering, or a related field by the expected start date.

Required application documents include a cover letter, CV, a statement of research interests, a teaching statement, and up to three representative papers. Candidates are also required to submit the names and contact information for at least three and up to five references, and the application is complete only when three letters have been submitted. We encourage candidates to apply by December 1, 2017, but will continue to review applications until the position is filled. Applicants will apply on-line at http://academicpositions.harvard.edu/postings/7845.

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law.
