

The Department of Chemistry at the University of California, Davis invites applications for an assistant or associate professor in the area of experimental NMR spectroscopy.

A Ph.D. in Chemistry or related field is required. Candidates must possess or demonstrate the potential to achieve a strong record in the areas of research, teaching and service. The candidate must also possess the ability to teach both undergraduate and graduate level chemistry courses, and be strongly committed to providing service to the department, university, and chemistry communities.

The start date for this position is July 1, 2018. The position will remain open until filled but to assure full consideration, submit by October 15, 2017 a cover letter, Curriculum Vitae, Statement of Research, Statement of Teaching, Statement of Contribution to Diversity, contact information for at least three references and, if PhD obtained during 2014 or later, transcripts. For information about the Department of Chemistry, visit <http://chemistry.ucdavis.edu> Review of applications will begin by October 15, 2017 and will continue until the position is filled. Applications should be submitted here: <https://recruit.ucdavis.edu/apply/JPF01707>. The University of California is an Equal Opportunity/Affirmative Action Employer.
