About NOBCCChE

The primary purpose of the National Organization for the Professional Advancement of Black Chemists and Chemical Engineers (NOBCCChE) is to initiate and support local, regional, national, and global programs that assist people of color in fully realizing their potential in academic, professional, and entrepreneurial pursuits in chemistry, chemical engineering, and related fields. The Organization promotes careers in science and technology as an achievable goal for elementary, middle, and high school students. In addition, NOBCCChE encourages college students to pursue graduate degrees in the science, technology, engineering, and mathematics (STEM) disciplines.

2015 Conference
will be held September 21 • 25 at the beautiful Renaissance
at Sea World in Orlando, Florida.

Through its National Academic Partnership Program NOBCChE works with major colleges and universities to:

- Develop targeted and specific mentoring and partnership relationships with major corporations
- Identify up and coming undergraduate students of color in STEM programs for graduate and post-doctoral opportunities
- Assist in college/university in targeting superstar faculty members for academic openings
- Encourage secondary students to pursue STEM degrees
- Track and report on minority hires from partner programs through NOBCChE
- Develop customized programs to help prepare students at partner colleges/universities for maximum success during job search
- Develop other programs to help partners to achieve targeted corporate objectives related to the hiring and training of scientists of color.

Below is an overview of the partnership opportunities available and some of the benefits associated with each. Each package can be customized to meet the particular needs of the corporate partner.
