Job Description:

Job Title
Supplier Quality Specialist

Collaborate with innovative 3Mers Around the World
Choosing where to start and grow your career has a major impact on your professional and personal life, so it's equally important you know that the company that you choose to work at, and its leaders, will support and guide you. With a diversity of people, global locations, technologies and products, 3M is a place where you can collaborate with other curious, creative 3Mers.

This position provides an opportunity to transition from other private, public, government or military experience to a 3M career.
The Impact You’ll Make in this Role
As a Supplier Quality Specialist, you will have the opportunity to tap into your curiosity and collaborate with some of the most innovative and diverse people around the world. Here, you will make an impact by:

- Participating in supplier selection process
- Leading supplier prioritization process
- Monitoring, reviewing and documenting supplier performance ratings & providing supplier feedback
- Using data analytics to provide insights on performance of key suppliers
- Leading supplier improvement projects
- Organizing and leading supplier quality audits

Your Skills and Expertise
To set you up for success in this role from day one, 3M requires (at a minimum) the following qualifications:

- Bachelor’s degree or higher (completed and verified prior to start) from an accredited institution
- Seven (7) years of combined experience Quality Engineering, Supplier Management, Quality Management Systems, Six Sigma, Statistical Analysis and/or Design Control within a private, public, government, or military environment

Additional qualifications that could help you succeed even further in this role include:

- Two (2) years in medical device and/or quality management system experience such as Food and Drug Administration (FDA) Quality System Regulation (QSR) and/or International Organization for Standardization (ISO) 13485
- Minimum of two (2) years of experience leading or actively participating in Supplier Quality Audits
- Experience leading PPAP and SPQP with suppliers
- Minimum of 2 years of experience in product engineering, process engineering, quality assurance or related technical field
- Experience working with suppliers in a quality improvement capacity is desired
- Experience with statistical analysis
- Manufacturing experience
- ASQ certified quality engineer

Work location:

- Work Your Way Eligible (Employee choice to work remote, on site, or hybrid)
- Proximate to any Major U.S. Airport

Travel: May include up to 30% domestic/international
Relocation Assistance: Is not authorized

Must be legally authorized to work in country of employment without sponsorship for employment visa status (e.g., H1B status).

Supporting Your Well-being
3M offers many programs to help you live your best life – both physically and financially. To ensure competitive pay and benefits, 3M regularly benchmarks with other companies that are comparable in size and scope.
