

**Assistant Professor of Chemistry**  
**Department of Chemistry and Biochemistry, College of Sciences and Mathematics**  
**Auburn University**

The Department of Chemistry and Biochemistry at Auburn University invites applications for a tenure-track, nine-month position at the rank of Assistant Professor in the area of Experimental Spectroscopy. All areas of fundamental and applied spectroscopic research will be considered. As a Research I university and one of the nation's premier land, sea, and space grant institutions, Auburn University is fully committed to creating a stimulating academic environment for high-quality research and teaching excellence. The successful candidate is expected to develop a vigorous, externally funded research program and teach at both the graduate and undergraduate levels. Excellent written and interpersonal communication skills are required. A Ph.D. in chemistry, biochemistry, or a closely related field and at least one year of postdoctoral experience are required at the time employment begins. The successful candidate must be eligible to work in the United States at the time employment begins and continue to work legally for the proposed term of employment.

Review of applications will begin on October 31, 2021 and will continue until the position is filled. All applicants should submit A) a cover letter, B) a curriculum vitae, C) a detailed statement of research plans (not to exceed eight pages), D) a statement of teaching philosophy, E) the names and contact information of three professional references, and F) a diversity, equity, and inclusion statement describing how their past and/or planned contributions to teaching, research, and/or service will serve to advance the mission of the College of Sciences and Mathematics in creating an inclusive environment. Please see <https://www.auburn.edu/cosam/about/mission-vision-oied.htm> for more information.

At the College of Sciences and Mathematics, we are committed to cultivating culturally competent professionals. Our department is a welcoming and inclusive community of 28 research and teaching faculty and over 80 graduate students. We are committed to fostering diversity among our faculty, staff, and student body, and we particularly encourage candidates from historically excluded groups, such as women and underrepresented minorities, to apply. Additional information about the Department of Chemistry and Biochemistry is available at: <http://www.auburn.edu/chemistry>. Auburn University is understanding of and sensitive to the family needs of faculty, including dual-career couples. For more information, please visit: <http://www.auburn.edu/academic/provost/facultyjobs/>.
