

**Lecturer in General, Analytical, and Physical Chemistry
Boston University, Department of Chemistry**

The [Department of Chemistry](#) at Boston University invites applications from outstanding candidates for the position of Lecturer starting July 1, 2021. This position requires a Ph.D. in Chemistry, with a preference for candidates who have substantial experience in teaching experimental physical and analytical chemistry. Duties include coordinating and leading the laboratory component of a two-semester intensive general chemistry course, as well as one-semester advanced laboratories in analytical and physical chemistry. Candidates with an interest in developing innovative pedagogical approaches in laboratory chemistry instruction are especially encouraged to apply.

Applicants should apply by submitting a letter of interest, a statement of teaching philosophy, and current CV, and arrange to have three letters of reference sent by May 1, 2021 through [AcademicJobsOnline.org](#), job reference #18342. Please direct email queries to straub@bu.edu.

Boston University is an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law. We are a VEVRAA Federal Contractor.
