Position Title: Assistant Professor in Molecular Biophysics and Biochemistry

Position Description
The Department of Biochemistry at Brandeis University invites applications for a tenure-track faculty position to begin in Fall 2024. We are searching for a creative, collaborative scientist who will establish an independent research program addressing fundamental mechanistic questions in molecular biophysics and biochemistry. Excellence in teaching is also a priority; department faculty teach one semester-long advanced undergraduate or graduate course per year.

Brandeis is a research-intensive liberal arts university with a close-knit and vibrant scientific community. Our campus in Waltham, Massachusetts is part of the dynamic academic and biotechnology environment of the greater Boston area. For more information please visit http://www.brandeis.edu/biochemistry/ or contact Timothy Street, Associate Professor (tstreet@brandeis.edu).

The application should include a cover letter, curriculum vitae, statement of research accomplishments and future plans, copies of up to five publications, and three letters of reference. Applications will be accepted only through Academic Jobs Online at https://academicjobsonline.org/ajo/jobs/25444

First consideration will be given to applications received by November 15, 2023. Brandeis University is an Equal Opportunity Employer, with a longstanding commitment to diversity rooted in values of inclusion and social justice. We welcome applications from candidates who share these values and who will contribute to the University’s mission of excellence.

Brandeis University is committed to providing its students, faculty and staff with an environment conducive to learning and working and where all people are treated with respect and dignity. We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, ancestry, national origin, ethnicity, caste, sex, pregnancy, sexual orientation, gender identity/expression, including transgender identity, religion, disability, age, genetics, active military or veteran status and any other characteristics protected under applicable federal or Massachusetts law.
