Job Title: Lecturer - Biochemistry or Organic Chemistry  
Job ID: 25333  
Location: Brooklyn College  
Full/Part Time: Full-Time  
Regular/Temporary: Regular

FACULTY VACANCY ANNOUNCEMENT

Brooklyn College of the City University of New York (CUNY) invites applications for a full-time Lecturer position in the Department of Chemistry with a starting date in August 2023.

The Department of Chemistry is home to 17 full-time faculty and six full-time laboratory technicians who are committed to equipping students with the knowledge and skills necessary to succeed in their professional careers. The department places a high premium on supporting students from minority groups under-represented in the sciences, and recently won an award from the American Chemical Society in recognition of these efforts.

The School of Natural and Behavioral Sciences offers both undergraduate and graduate degree programs through its nine departments – Anthropology and Archaeology, Biology, Chemistry, Computer and Information Science, Earth and Environmental Sciences, Health and Nutrition Sciences, Math, Physics, and Psychology.

The successful applicant will join a large, CUNY-wide cohort of new lecturers seeking to engage in a program of ongoing pedagogical development. The applicant will also need to participate in service activities for the department, college, and greater community. The position will also include opportunities for student advisement and mentorship.

Brooklyn College serves students from as many as 150 countries who speak over 100 languages and dialects and thus constitutes a microcosm of the rich diversity and energy that characterizes the borough of Brooklyn and the greater New York City area itself. Its mission features “a special commitment to educate immigrant and first-generation college students from the diverse communities that make up our city and state.” The college ethos is strongly invested in the educational and career success of a population that encompasses a multiplicity of nationalities, ethnicities, religions, cultures and languages. We are committed to fostering a spirit of camaraderie and shared ideals across the entire spectrum of our varied constituency. By accessing a first-class and affordable college education in an inclusive and nurturing intellectual milieu, our students acquire the skills, confidence, and global mindedness that allow them to thrive in a rapidly changing, unpredictable marketplace of ideas that is increasingly mindless of borders and spans the gamut of cultures and vernaculars.

To this end, the college seeks faculty who are eager to engage with the diversity of our student body and have a demonstrated commitment to inclusion and heterogeneity through teaching, research and/or
We seek to recruit and retain faculty who reflect the mosaic of our student population. Successful candidates will bring their unique creativity, sensitivity, insights and perspectives to a community that welcomes innovation in scholarship and teaching. Together we will model the finest that a public urban liberal arts, sciences, and professional studies college can be for the present and future.

The successful applicant will possess at least a Master’s degree or higher in chemistry, STEM education, or a related field; a doctoral-level degree in one of these fields is preferred. The applicant will also have experience teaching organic chemistry and/or biochemistry at the undergraduate level and will be committed to excellence in pedagogy and in student retention. The preferred candidate will be able to make contributions in both organic chemistry and biochemistry, though it is understood that their strength may be greater in one area than the other. Instructional assignments in other areas of chemistry are possible based on the candidate’s interests. A priority for the department is the development of programs and resources to support student retention, and the successful applicant will be prepared to play a leading role in addressing these challenges.

Candidates will be required to provide proof of being fully vaccinated against COVID-19 upon commencing employment. Exemption (medical or religious) requests to this requirement will be considered in accordance with applicable law. Being fully vaccinated is defined for this purpose as being at least two weeks past their final dose of an authorized COVID-19 vaccine regimen. Final candidates must be fully vaccinated as of their first day of employment.

**QUALIFICATIONS**

**Minimum**
- Master’s degree in Chemistry, Biochemistry, or related field from an accredited institution
- Ability to teach undergraduate courses is required
- Ability to teach evening, weekends, face-to-face, and online

**Preferred**
- Potential for excellence in teaching, including online teaching.
- Doctoral degree in Chemistry, Biochemistry, or related field from an accredited institution.
- Prior experience with innovative pedagogical techniques and/or novel approaches to student retention, particularly for student groups historically under-represented in the sciences.

**COMPENSATION**

$69,983 - $83,764; Salary commensurate with experience and credentials.

CUNY offers faculty a competitive compensation and benefits package covering health insurance, pension and retirement benefits, paid parental leave, and savings programs. We also provide mentoring and support for research, scholarship, and publication as part of our commitment to ongoing faculty professional development.

**HOW TO APPLY**

**STEP ONE - Submit application online**
From our job posting system, select "Apply Now", create or log in to a user account, and provide the requested information. If you are viewing this posting from outside our system, please visit https://cuny.jobs/brooklyn-college/new-jobs/

Applicants should upload the following in .doc or .pdf format:

- An application letter indicating the desired position that details how the candidate’s teaching, service and/or scholarship has supported the success of students from racial, ethnic, and gender backgrounds that are underrepresented in their academic fields; applicants who have not yet had the opportunity for such experience should note how their work will further CUNY’s commitment to diversity.
- Current curriculum vitae

STEP TWO - Submit References Contact Information at www.brooklyn.cuny.edu/hrref/?215

All applicants are required to have three confidential letters of recommendation submitted electronically by their recommenders by visiting the link above and entering the contact information for three (3) recommenders.

The online system will automatically email your recommenders a request to submit a letter via the system. Full instructions will be provided.

Emailed or hard copy applications will not be considered.

CLOSING DATE
Review of applications to begin November 2, 2022 and will continue until filled.

EQUAL EMPLOYMENT OPPORTUNITY
