COLGATE UNIVERSITY—CHEMISTRY
The chemistry department at Colgate University invites applications for a tenure-stream position in physical chemistry at the rank of Assistant Professor, beginning fall semester 2024. A PhD in chemistry or a closely related field is required. Postdoctoral research experience is preferred. Particular interest will be given to candidates with expertise and research interests that complement existing department expertise, and whose research plans have a significant experimental component. The successful candidate will be expected to teach general chemistry, teach foundational and advanced physical chemistry, direct an undergraduate research program, and participate in all-university programs, including the Liberal Arts Core Curriculum. A cover letter, curriculum vitae, a teaching statement, a description of research plans, a diversity statement, and three letters of recommendation must be submitted through https://apply.interfolio.com/130234. The teaching statement should include a consideration of the candidate’s applicable experiences, and/or other qualifications to teach classes and labs in general and physical chemistry. Colgate strives to be a community supportive of diverse perspectives and identities. Candidates should describe in a one-page diversity statement how their teaching, scholarship, mentorship, and/or community service might support the university's commitment to diversity and inclusion. Evaluation of applications will begin September 22 and will continue until the position is filled. Colgate is a vibrant liberal arts university of 3000 students situated in central New York State. Colgate faculty are committed to excellence in both teaching and scholarship. The chemistry department offers strong BA programs in chemistry and biochemistry and has excellent facilities for teaching and research. New faculty members receive generous start-up support. Student participation in faculty research programs is strongly encouraged and supported. One year of research is required of all senior majors, and student stipends for summer research are available. Candidates are encouraged to visit the department’s information page, (Colgate University Chemistry Website) to learn more about teaching and research in chemistry at Colgate, receive further guidance about applying for this position, and for information regarding other positions available in the department. In addition, applicants with dual-career considerations can find postings of other employment opportunities at Colgate and at other institutions of higher education in upstate New York can be found at https://upstate-ny.hercjobs.org/. It is the policy of Colgate University not to discriminate against any employee or applicant for employment on the basis of their race, color, creed, religion, age, sex, pregnancy, national origin, marital status, disability, protected Veteran status, sexual orientation, gender identity or expression, being or having been a victim of domestic violence or stalking, familial status, or any other categories covered by law. Colgate is an Equal Opportunity/Affirmative Action employer. Candidates from historically underrepresented groups, women, persons with disabilities, and protected veterans are encouraged to apply.
