The Department of Chemistry at Fordham University invites applications for a tenure-track Assistant Professor position. Candidates with a Ph.D. and post-doctoral research experience in Biochemistry (broadly defined) / Bioinorganic / Bioanalytical / Toxicology or a Biotechnology related field are encouraged to apply for the position starting in Fall 2023. The successful applicant is expected to develop a strong, externally funded original research program that involves mentoring undergraduates and publishing in peer-reviewed journals. Teaching responsibilities may include laboratory / lecture courses such as General, Inorganic, and/or Biophysical chemistry or related topics. Candidates should submit a CV; unofficial transcripts; description of proposed research, statement of teaching philosophy; a statement of diversity and inclusion; and a minimum of three references to http://apply.interfolio.com/110834

Fordham is an independent, Catholic University in the Jesuit tradition, committed to excellence through diversity. Fordham is an equal opportunity employer, and we especially encourage women, people of color, veterans and people with disabilities to apply.

Applications must be received by October 15th 2022.
