The Department of Chemistry at Haverford College is searching to fill two instructional staff positions: (1) a departmental Instrument Specialist to maintain the chemical instrumentation used in our teaching and research, and to instruct students in its use, and (2) an Organic Chemistry Laboratory Instructor & Coordinator to provide instruction and logistical support for the laboratory sections that accompany our second-year organic chemistry courses. Job descriptions and application instructions may be found at Haverford College’s HR website; review of applications will begin on March 28, 2022, and will continue until the position is filled. Both positions are full-time and full-year and include health, dental and retirement benefits.

Haverford College is a private four-year residential undergraduate-only college located just three miles from Philadelphia. Our students are academically strong, and diverse with respect to ethnicity, race, nationality, economic security, and gender. We graduate 20-35 chemistry majors each year; all our majors engage in student research during their senior year, and most engage in research over at least one summer and/or during semesters before their senior year. We provide excellent academic and research training in the context of a supportive community.

The Chemistry Department has a strong commitment to providing a welcoming and excellent education for all students who enroll in our courses, and to be anti-racist in our words and actions (see https://hav.to/9fn). For both positions, we particularly welcome applications from candidates who can help strengthen our ability to meet these commitments to diversity, equity and inclusion for all of our educational offerings.

If you have questions about these positions or the application process, feel free to contact Rob Scarrow, Chair of the Haverford College Department of Chemistry, at rscarrow@haverford.edu or 610-896-1218.

Haverford College is an Equal Opportunity/Affirmative Action employer committed to diversity, equity, inclusion, social justice, and providing equal opportunities and access to all individuals regardless of race, ethnicity, religion, gender identity, sexual orientation, national origin or ancestry, age, marital status, disability, or veteran status. Women, non-binary and transgender individuals, people of color, Indigenous people, and those with other or multiple historically marginalized and/or underrepresented identities are especially encouraged to apply. Haverford College and our consortial partners are located on Lenape land.
