The Department of Chemistry at Hendrix College invites applications for a tenure track position as Assistant Professor of Chemistry to begin in August 2023. The College seeks to extend its tradition of excellence in teaching and scholarship by attracting faculty who combine mastery of their disciplines with broad intellectual interests and commitment to the aims of a liberal arts education.

The chemistry department offers ACS accredited chemistry and ASBMB accredited biochemistry/molecular biology programs and is well equipped with modern instrumentation. Applicants should be able to teach introductory biochemistry and organic chemistry courses, both with laboratory. The teaching load is six courses (3/3) with 25% of that reassigned to develop and sustain an active research program that involves undergraduate students. Doctorate is expected by the start date; however, applicants who are ABD at the time of application will be considered.

Applications should include a cover letter addressing the candidate’s interest in teaching in a demanding liberal arts environment, a curriculum vitae, a statement of teaching interests, a statement of research plans, evidence of teaching effectiveness, a diversity statement, and graduate and undergraduate transcripts. In addition, three letters of recommendation should be sent by e-mail to HR@hendrix.edu. Address cover letter to Dr. David Hales, Professor and Chair of Chemistry. Electronic submissions are strongly encouraged and can be submitted at www.hendrix.edu/jobs. Review of materials will begin October 17, 2022, and will continue until the position is filled.

Hendrix is a distinguished liberal arts college located in Conway, Arkansas, thirty miles from Little Rock at the foothills of the Ozark Mountains.

The College, affiliated with the United Methodist Church, has a strong commitment to excellence in teaching liberal arts. Hendrix College is an equal opportunity employer, and all applications will be considered without regard to race, gender, disability, sexual orientation, national origin or any other characteristic specified by law. The College is committed to maintaining an atmosphere of civility and respect for all students, faculty and staff.
