

JOHNS HOPKINS
SCHOOL of MEDICINE

Department of
Cell Biology

Director
Department of Cell Biology

The Johns Hopkins University School of Medicine is seeking an exceptional individual to lead the Department of Cell Biology. The mission of the Department is to continue to be a world leader in cell life science research and education. Applicants should have a demonstrated track record of excellence in discovery and innovation with respect to research and teaching, a commitment to service and administration, outstanding interpersonal skills, and a compelling vision for promoting faculty growth and advancing the Department's vision of pre-eminence in all of its endeavors.

The Department of Cell Biology is dedicated to building an inclusive and pluralistic faculty that exemplify diversity. Applications from candidates whose experience has prepared them to make strong contributions to diversity and inclusion in higher education are strongly encouraged. Johns Hopkins is an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, disability status, protected veteran status, or any other characteristic protected by law.

Please send letter of application, *curriculum vitae* and bibliography by April 17, 2020, to:
