

James Madison University is seeking an assistant professor for a tenure-track position beginning in fall 2019. We are seeking a science educator to serve in a dual role, teaching science to future PK-8 teachers, and also contributing to either the Environment academic team or the Energy academic team of our innovative program in Integrated Science and Technology (ISAT).

Primary responsibilities for this position involve teaching introductory science and technology courses to students in the Interdisciplinary Liberal Studies (IdLS) program, which prepares students to meet the competencies required for teacher licensure (PK-8) in Virginia. For more information on the IDLS program see <https://www.jmu.edu/idls>.

While primary teaching responsibilities are in support of the IdLS program, this appointment will be made within JMU's Integrated Science and Technology program in the School of Integrated Sciences. The ISAT program is an ABET-accredited interdisciplinary applied science program that leads to an undergraduate degree in Integrated Science and Technology. The successful candidate will be able to contribute to the ISAT Environment or Energy academic team, or both, by teaching undergraduate courses and advising undergraduate students in projects. ISAT produces graduates with strong problem-solving skills acquired from coursework that integrates the sciences, liberal studies, and management. The integrative, thematic, problem-based curriculum of this program mirrors pedagogical advancements for PK-12 instruction. More information about the ISAT degree program can be found at <http://www.jmu.edu/bsisat>.

Successful applicants must have a terminal degree (PhD or equivalent) in either education or a science/technology discipline and relevant background and experience in science education.

To apply visit <http://joblink.jmu.edu/postings/4502> or go to [JobLink.jmu.edu](http://JobLink.jmu.edu) and reference posting number F1249. Candidates will complete the online application and attach a (1) cover letter, (2) curriculum vitae, and a (3) statement of teaching interests, experience, and philosophy. Applicants will provide contact information for 3 references as part of the application. The option to submit supplemental materials is also available through JobLink. Note that only complete electronic submissions will be considered by the search committee. Applications will be accepted until the position is filled, with review to begin January 2, 2019.

For additional information, applicants are encouraged to contact Dr. Thomas Benzing at [benzintr@jmu.edu](mailto:benzintr@jmu.edu) or 540-568-2794.
