**ABOUT JOHN CARROLL UNIVERSITY**

John Carroll University is a private, coeducational, Catholic and Jesuit university of 3,500 students providing programs in the liberal arts, sciences, and business at the undergraduate level and in selected areas at the master’s level. Founded in 1886, JCU has earned the #2 spot in the 2020 *U.S. News & World Report* Best Colleges Rankings, among Best Regional Universities in the Midwest. The University seeks to attract an active, culturally and academically diverse faculty, skilled in fulfilling University Learning Goals of Intellect, Character, Leadership, and Service. John Carroll is in a residential
ABOUT THE DEPARTMENT OF CHEMISTRY

The Department of Chemistry is approved by the American Chemical Society (ACS) and offers a program that leads to a B.S. in Chemistry, with optional concentrations in Biochemistry and Chemical Physics. The department currently includes seven full-time tenured faculty, a general chemistry lab coordinator, a half-time administrative assistant, and a central stores manager. The department graduates 20-25 majors each year, with approximately two-thirds engaging in research projects both on and off campus. The department is equipped with modern instrumentation including a 300 MHz NMR, ESR, GC, GC-MS, HPLC, IR, DSC, Fluorimeter, UV-Vis, Electrochemical, AA, ICP-OES, Microwave Synthesis and Polarimeter.

For additional information on the University and the Department, please visit: http://sites.jcu.edu/chemistry

Required Qualifications

- A Ph.D. in chemistry or closely related discipline is required at the time of appointment and some teaching experience is desirable.
- The successful candidate will have a strong commitment to undergraduate education in a liberal arts environment and be familiar with pedagogical practices informed by chemistry education research, including active learning approaches.

Preferred Qualifications

- The ability to teach advanced undergraduate courses in their area of specialization
- The ability to aid in the maintenance and repair of modern chemistry instrumentation
- A fundamental knowledge of and experience with course level assessment of learning outcomes will be an advantage.

John Carroll University requires all employees to be Fully Vaccinated from COVID-19 and to present proof of full vaccination as a condition of employment with the University. Individuals who are offered and accept positions at the University may seek medical and non-medical exemptions from the Vaccination Requirements. Our interim COVID-19 policy can be found via this link: https://jcu.edu/sites/default/files/2022-01/COVID-19%20Interim%20policy%201%2010%2022%20%28v2%29.pdf
A complete application consists of:

- A cover letter of application that includes a statement of teaching experience, interests and philosophy, a reflection about and evidence, if available, of your teaching effectiveness and a discussion of the ways you have contributed to diversity, equity, and inclusion work in your previous education, employment, and professional experiences.
- CV
- Contact information and confidential letters of recommendation from three current references
- Unofficial copies of all university transcripts

Information about department instrumentation and faculty research areas can be obtained at http://sites.jcu.edu/chemistry. Additional questions about the department, program, or this position can be directed to Dr. Michael A. Nichols, Chemistry Department Chair, at mnichols@jcu.edu or (216) 397-4796.

John Carroll University is an Affirmative Action, Equal Opportunity Employer. The University is committed to diversity in the workplace and strongly encourages applications from women and minorities, veterans and individuals with disabilities.
