Research Leadership Faculty Position

The Massachusetts General Hospital Department of Surgery is seeking qualified applicants with doctoral degrees for a faculty level position. Successful candidate(s) will have excellent oral and written communication skills, a strong research background, well developed interpersonal skills, and interest in collaborating with a team of surgeons and researchers at MGH and other Harvard-affiliated institutions.

Faculty rank will be commensurate with qualifications and experience of the successful candidate at the Instructor, Assistant Professor, or Associate Professor levels at Harvard Medical School. A strong commitment to teaching and mentoring residents, research fellows, and medical students is required.

Areas of particular interest and leadership skills include the following:

- Translational science including experience in molecular and experimental biology, disease modeling, diagnostic/imaging technologies, and/or biomedical engineering.
- Biorepository creation and/or management at a large scale including cryopreservation.
- Management of large-scale research initiatives, including reporting, infrastructure, personnel, and other resources to meet a strategic vision.
- Track record of securing extramural funding (federal and philanthropic) and dissemination of research efforts, especially resulting from interdisciplinary collaborations with academia or industry.
- Demonstrated dedication to mentorship, training, and career development for trainees and investigators.
- Other areas of demonstrated leadership could include research safety, animal subjects research activities, observational data including statistical expertise, multi-site phase I – III trials, and/or clinical database management/operations.

We are an equal opportunity employer, and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender, gender identity or expression, sexual orientation, genetics, age, pregnancy and pregnancy-related conditions or any other characteristic protected by law.

Interested candidates should send a cover letter, research and personal statement, three potential referees and Curriculum Vitae to (dsalvati@mgh.harvard.edu). Review of application will begin December 2022 and continue until the position is filled.
