

**University of Notre Dame
Tenured/Tenure-track Faculty Positions in Chemistry and Biochemistry**

The Department of Chemistry and Biochemistry at the University of Notre Dame seeks to fill multiple tenure-track or tenured positions. Candidates in all areas of chemistry, biochemistry, and their interface are encouraged to apply. All candidates will receive consideration regardless of research theme, though we particularly encourage applications from candidates working in the broad areas of biochemistry, molecular biology, and synthetic biology. Exceptional candidates at all ranks are welcomed. Candidates are asked to provide a cover letter, curriculum vitae, detailed research plan, a statement of teaching philosophy and interests, and a statement summarizing their plans and commitment to creating a diverse and inclusive scientific environment. Junior candidates should arrange for the submission of at least three letters of recommendation; senior candidates may apply in confidence. All materials should be submitted to the application website at apply.interfolio.com/93452. Applications will be considered on a rolling basis upon receipt but should be received by November 15th, 2021 to receive full consideration.

The University of Notre Dame seeks to attract, develop, and retain the highest quality faculty, staff, and administration. The University is an Equal Opportunity and affirmative action employer with a strong commitment to fostering a culturally diverse atmosphere for faculty, staff and students. We strongly encourage applications from women, minorities, and those attracted to a university with a Catholic identity. The University also considers all qualified applicants for employment without regard to status as a protected veteran or individual with a disability.
