University of Notre Dame
Tenured/Tenure-Track Faculty Position in Biochemistry/Molecular Biology

The Department of Chemistry and Biochemistry at the University of Notre Dame expects to fill a tenure-track or tenured position in the broad areas of biochemistry, molecular biology, or synthetic biology. However, we will consider outstanding candidates in all areas of chemistry, biochemistry, and their interface, and we welcome exceptional candidates at all ranks. Candidates should provide a cover letter, curriculum vitae, detailed research plan, teaching philosophy and interests statement, and a summary of their plans and commitment to creating a diverse and inclusive scientific environment. Candidates at the assistant professor level should arrange for the submission of at least three letters of recommendation; senior candidates may apply in confidence. All materials should be submitted to the application website at http://apply.interfolio.com/112706. Applications will be considered on a rolling basis but should be received by October 31, 2022, to receive full consideration.

The University of Notre Dame seeks to attract, develop, and retain the highest quality faculty, staff, and administration. The University is an Equal Opportunity and affirmative action employer with a strong commitment to fostering a culturally diverse atmosphere for faculty, staff, and students. We strongly encourage applications from women, minorities, and those attracted to a university with a Catholic identity. The University also considers all qualified applicants for employment without regard to status as a protected veteran or individual with a disability.
