

# NOBCCChE<sup>®</sup>

New Orleans  
**September 11-14, 2023**

Dear Conference Attendees:

Included in this packet, you will find valuable information about NOBCCChE's esteemed sponsors and exhibitors for this year's Career and Academic Expo marking our 50<sup>th</sup> anniversary. These participants will be showcasing their offerings and providing various opportunities at the Expo, taking place in the **Napoleon Ballroom at the Sheraton on Thursday, September 14<sup>th</sup> from 9 am to 3:30 pm EDT**. Further, specific details about each sponsor/exhibitor and their primary contacts are provided in the packet. Also, the insights on the target demographics each sponsor/exhibitor aims to attract to their booth, along with the opportunities available for attendees to explore is provided within the packet.

As you read through this packet, you will have the ability to identify sponsors/exhibitors that align perfectly with your interests. This will enable you to strategically plan your route through the Expo to maximize your chances of securing your dream internship, fellowship, or full-time position. *Many of our previous attendees can attest to this!* Located at the back of this packet, you will find a detailed map of the Expo floor, complete with a handy listing of each exhibitor's booth number.

Our esteemed participants in the Career and Academic Expo are dedicated to assisting NOBCCChE to continue creating a remarkable and diverse group of leaders in STEM as we have done in the last 50 years. Many of our sponsors/exhibitors reserve special slots in their internship/fellowship programs exclusively for NOBCCChE attendees, while others aim to cultivate a pool of talented and diverse candidates for their organizations. ***By attending the Expo on Thursday, you have the opportunity to support them in helping you achieve your goals.***

We look forward to seeing you on the Expo floor!

Sincerely,  
NOBCCChE Business Development/Expo Subcommittee

**Primary Recruiting Contact** - Kate French, [katherine.french@merck.com](mailto:katherine.french@merck.com)

**Target Audience** - Undergraduates, Graduate Students, Postdocs and Professionals

**Types of Positions** - Full-Time Employment and Internships

For more than 130 years, we have brought hope to humanity through the development of important medicines and vaccines. We aspire to be the premier, research-intensive biopharmaceutical Company in the world—and today, we are at the forefront of research to deliver innovative health solutions that advance the prevention and treatment of diseases in people and animals.

We strive to foster a diverse and inclusive global workforce and operate responsibly every day to enable a safe, sustainable and healthy future for all people and communities.

### **Opportunity:**

2024 University Recruiting - Protein Mass Spectrometry Intern

<https://jobs.merck.com/us/en/job/R254565/2024-University-Recruiting-Protein-Mass-Spectrometry-Intern>

We are seeking skilled candidates to join the mass spectrometry capabilities team within the Mass Spectrometry & Biophysics group. The mass spectrometry group is part of a multi-functional team focused on enabling lead identification and characterization for discovery efforts throughout our company's portfolio. We employ a range of skills and techniques to study the interaction of ligands with therapeutic targets aimed at understanding structure/function relationships. The successful candidate will ideally have background knowledge or prior experience in protein mass spectrometry or protein biochemistry and will have the opportunity to learn how to apply their expertise, along with a suite of complementary capabilities, to problem solve in support of our Company small and large molecule pipeline.

As industry leaders, we've got big plans for our path forward. We're Moving Beyond Smoking™ and towards a brighter future. We're continuing to build on our history of responsibility and sustainability.

More inclusive, more diverse, and more equal than ever before. And as we aim for an even better future, we need everyone involved. Not to follow, but to lead. Not to accept, but to act. We've long championed a culture where everyone feels heard. Because we believe that a supported team is a strong team. And a strong team is unstoppable.

Throughout this journey, inclusivity will be our driving force. We're welcoming people from every background and empowering more points of view. Because we know our next big idea could come from anyone. And because that's what it takes to enact lasting positive change. Together, we're creating a culture for all. Together, we're reshaping an industry from within. Together, we're doing more than we can do alone. We are **Altria**.

We look forward to meeting you at Booth #406!

### Awards and recognition

We were honored to be recognized for our equity, diversity, and inclusion (ED&I) work, compensation and benefits offerings, and more in 2022.

Blueprint was named one of the Best Places to Work in 2022 in Massachusetts by the *Boston Globe*.

### Blueprint Medicines Early Career Programs

At Blueprint Medicines, we value an inclusive and collaborative environment focused on bringing transformative medicines to patients. Our early career programs bring in new, unique perspectives to help drive our mission forward. We value equity, diversity and inclusion in our workplace and within our communities, and strive to ensure that our early career programs not only bring a wide range of backgrounds to the table, but also provide opportunities to gain a foot in the door and a seat at the table in our industry.

### The drive to take discovery further

Our research focuses on distinct areas where we believe we can significantly advance medicine and improve patient outcomes. Across these areas, we combine a rich universe of kinase targets with profound scientific, clinical and commercial expertise.

# Join the Lilly Team at NOBCChE, 2023

[CAREERS AT LILLY](#) | [JOIN OUR TALENT COMMUNITY](#)

## Who We are

At Lilly, we create new medicines that give people new hope – to get better, feel better, live better.

It's not just what we do. It's who we are.

Throughout our history, Lilly researchers have been driven by the desire to make a meaningful difference for people living with diseases that rob them of hope and good health.

That's why we're urgently pushing the boundaries of science, advancing new discoveries with the latest technology so that diseases causing major harm today will see meaningful healing tomorrow.

Far too many diseases cannot be cured or managed. Though much work remains, and there will be setbacks, new pathways and technologies offer hope of finding treatments that can slow or even stop them.

## Lilly at a Glance

- A heritage 147 years strong: company founded on May 10, 1876
- Headquarters located in Indianapolis, Indiana, U.S.A.
- More than 39,000 employees worldwide
- Approximately 9,400 employees engaged in research and development
- Clinical research conducted in more than 55 countries
- Research and development facilities located in 7 countries
- Manufacturing plants located in 7 countries
- Products marketed in approximately 110 countries
