

The NSF PREM For Hybrid Nanoscale Systems at North Carolina Central University invites applications for two postdoctoral positions in synthesis and characterization of low-dimensional nanomaterials. A Ph.D. in Chemistry, Physics, Materials Science or a related field is required. The initial appointment will be for a period of one year with possibility of extension up to three years. Detailed information can be found at: <https://sites.psu.edu/nccuprem/>

NCCU is an Equal Opportunity employer; minority candidates and women are especially encouraged to apply.
