The Department of Physics at New York University invites applications for a faculty position in the general area of theoretical soft condensed matter physics, including biological applications. This position is part of the initiative to develop NYU’s Center for Soft Matter Research. More information about current research programs in the Department and the Center can be found online at https://as.nyu.edu/physics.html. The opening is for a theoretical physicist at the rank of tenure-track Assistant Professor. A successful candidate will have a Ph.D. and is expected to establish a leading research program in their field and to teach at the undergraduate and graduate levels. The appointment can begin as early as September 1, 2022, pending administrative and budgetary approval.

Interested candidates should apply online at https://apply.interfolio.com/90667 with (1) a curriculum vitae including a list of publications, (2) a description of current and planned research activities, (3) a discussion of current and planned teaching and outreach activities, (4) the names of three references, and (5) a cover letter applying for the position that includes a diversity statement. Because diversity and inclusion are an important part of the NYU mission, candidates should include a paragraph in their cover letter indicating how diversity and inclusion figure into their past, present, and future teaching, research, and community engagement. (Additional information can be found here: https://as.nyu.edu/departments/facultydiversity/recruitment/diversity-statements.html)

Review of applications will begin on November 8, 2021.

The Faculty of Arts and Science at NYU is at the heart of a leading research university that spans the globe. We seek scholars of the highest caliber that embody the diversity of the United States as well as the global society in which we live. We strongly encourage applications from women, racial and ethnic minorities, and other individuals who are under-represented in the profession, across color, creed, race, ethnic and national origin, physical ability, gender and sexual identity, or any other legally protected basis. NYU affirms the value of differing perspectives on the world as we strive to build the strongest possible university with the widest reach. To learn more about the FAS commitment to diversity, equality, and inclusion, please read here: https://as.nyu.edu/departments/facultydiversity.html.
