200 and 580.

That is the number of chemists from whom you can learn in Cambridge, MA and globally within NIBR with their decades of synthetic and medicinal chemistry experience and knowledge. As chemists at the forefront of science, we are changing the way Novartis performs and thinks about cutting-edge science and technology.

We are seeking highly talented and motivated synthetic / medicinal chemists to join the Global Discovery Chemistry team at Novartis Institutes for BioMedical Research (NIBR) at our Cambridge, MA site. At NIBR we value your ideas, personal growth and career aspirations, as you will be surrounded by and learning from curious and un-bossed colleagues across multiple disciplines. You will be empowered to take calculated risks and to use your creativity and tenacity to work towards creating the next therapy.

We are Novartis. Join us and help us reimagine medicine.
Please apply at: Medicinal Chemistry Research Scientist (BS or MS) | Novartis

Your responsibilities will include:

- Independent design of compounds based on team and individual hypotheses, utilization of novel methodologies and technologies, and execution of multi-step syntheses of small molecules

- Use of contemporary medicinal chemistry principles to drive science to key decision points

- Analysis and interpretation of data, synthetic problem solving and design of follow-up experiments

- Collaboration with peers, working as an integral part of a cross-functional team

- Adherence to laboratory safety policies and practices

Minimum Requirements

- BS or MS degree in organic chemistry; 3+ years of industrial experience is preferred

- A comprehensive knowledge of modern organic synthetic methods; medicinal chemistry knowledge is a plus

- Excellence purification and analytical techniques

- Strong problem solving and communication skills

Why Novartis?

766 million lives were touched by Novartis medicines in 2021, and while we’re proud of this, we know there is so much more we could do to help improve and extend people’s lives.

We believe new insights, perspectives and ground-breaking solutions can be found at the intersection of medical science and digital innovation. That a diverse, equitable and inclusive environment inspires new ways of working.
We believe our potential can thrive and grow in an unbossed culture underpinned by integrity, curiosity and flexibility. And we can reinvent what's possible, when we collaborate with courage to aggressively and ambitiously tackle the world’s toughest medical challenges. Because the greatest risk in life, is the risk of never trying!

Imagine what you could do here at Novartis!

Commitment to Diversity & Inclusion:

Novartis is committed to building an outstanding, inclusive work environment and diverse teams representative of the patients and communities we serve.

Diversity & Inclusion / EEO

The Novartis Group of Companies are Equal Opportunity Employers and take pride in maintaining a diverse environment. We do not discriminate in recruitment, hiring, training, promotion or other employment practices for reasons of race, color, religion, gender, national origin, age, sexual orientation, gender identity or expression, marital or veteran status, disability, or any other legally protected status. We are committed to building diverse teams, representative of the patients and communities we serve, and we strive to create an inclusive workplace that cultivates bold innovation through collaboration and empowers our people to unleash their full potential.
