Assistant Professor of Chemistry and Biochemistry (Environmental Chemistry)

The Department of Chemistry and Biochemistry at Oberlin College invites applications for a full-time tenure track faculty position in the College of Arts and Sciences. Expertise should be in the area of environmental chemistry. Initial appointment to this position will be for a term of four years, beginning in the fall semester 2023, and will carry the rank of Assistant Professor.

The incumbent will teach the standard teaching load (4.5 courses per year) including environmental chemistry courses at all levels, analytical chemistry, and introductory chemistry.

The incumbent will also be expected to engage in sustained scholarly research and/or other creative work appropriate to the position and participate in the full range of faculty responsibilities, including academic advising and service on committees.

Through the incumbent's teaching of analytical chemistry and their specific research program, they will be an expert user of many of our communal department instruments. All members of the department share responsibility in maintaining instrumentation.

Among the qualifications required for appointment is the PhD degree (in hand or expected by first semester of academic year 2023-24). Postdoctoral experience is desirable. Candidates must demonstrate interest and potential excellence in undergraduate teaching. Successful teaching experience at the college level is desirable. Oberlin College is committed to student and faculty diversity, equity and inclusion. The incumbent will bring understanding of or experience working with underrepresented and diverse academic populations. Oberlin is especially interested in candidates who can contribute to the excellence and diversity of the academic community through their research, teaching, and service.

Review of applications will begin on September 26, 2022, and will continue until the position is filled. Completed applications received by the September 26 deadline will be guaranteed full consideration.
