Assistant Professor - Chemistry(Analytical) – Trinity University

The Department of Chemistry at Trinity University in San Antonio, TX invites applications for a tenure-track assistant professor in Analytical Chemistry beginning August 2024. Candidates must have a Ph.D. in chemistry (or related field) and postdoctoral research experience (or equivalent). Teaching responsibilities will include analytical chemistry courses and labs, general chemistry, and courses in the University curriculum. This position carries the expectation of developing a sustainable research program involving undergraduate students in any field broadly related to analytical chemistry. Interdisciplinary research is welcome. This program will directly support the goal of experiential learning found in the University Strategic Plan. The successful applicants will have a demonstrated desire to be a teacher-scholar. They will show a strong potential to contribute to teaching, research, engagement in the university and department, and a commitment to fostering diversity, inclusion, equity and belonging in the classroom, laboratory, and university community.
