Tulane University is seeking a person to fill a Visiting Assistant Professor position for the 2021-2022 academic year. The successful applicant will have a Ph.D. in Chemistry with expertise in Organic Chemistry. Prior teaching experience is not required but is advantageous. Duties will include teaching a large section of Organic Chemistry (~150 students) and supervising evening sections of Organic and General Chemistry Laboratories four nights weekly. Opportunities exist for research in collaboration with existing groups in the Chemistry Department. The salary for the single year position will be between $50k and $55k.

How to Apply:

Applicants should submit a cover letter, vitae, contact information from three professional references, statement of teaching philosophy, and a copy of the abstract of their Ph.D. dissertation. Applications will be considered until the position is filled.

To apply, all materials should be submitted via Interfolio at https://apply.interfolio.com/87977.

Questions about the position should be addressed to Dr. Russ Schmehl (russ@tulane.edu).

About the University:

Tulane, located in New Orleans, Louisiana, is a mid-sized private research university with approximately 8,100 undergraduate students. The Chemistry Department is part of the School of Science and Engineering and has 17 research faculty, 4 teaching faculty, approximately 60 graduate students and around 80 undergraduate Chemistry and Biochemistry majors. More information about the Department of Chemistry can be found on our website: https://sse.tulane.edu/chem. The University is located in the uptown section of New Orleans, on the streetcar line approximately 3 miles from downtown.
