Tenure-Track Assistant, Associate, or Full Professor, Chemistry & Biochemistry (TE/T)

The University of Arizona invites applications for a tenure-track faculty position in the Department of Chemistry and Biochemistry (CBC), within the College of Science and College of Medicine-Tucson, starting in Fall 2023.

We seek candidates with a research and education program in chemistry/biochemistry exploiting artificial intelligence and machine learning, with an emphasis on the development and application of these approaches to measurement sciences, broadly defined, but including data analysis, biosensors, mass spectrometry, and other areas where advanced data science techniques are key to the research endeavor and drive fundamental scientific discovery.

Visit CBC.ARIZONA.EDU

Candidates must be committed to excellence in teaching and mentoring at both undergraduate and graduate levels and to an inclusive climate supporting diverse students, trainees, staff, and colleagues.

The successful candidate will join a dynamic research environment within CBC and will have strong opportunities to collaborate with numerous Centers of Excellence across multiple Colleges. To foster diversity in our community, we encourage applicants from diverse perspectives and backgrounds to apply.

Please visit the position posting for all details:

At the University of Arizona, we value our inclusive climate because we know that diversity in experiences and perspectives is vital to advancing innovation, critical thinking, solving complex problems, and creating an inclusive academic community. We translate these values into action by seeking individuals who have experience and expertise working with diverse students, colleagues, and constituencies. Because we seek a workforce with a wide range of perspectives and experiences, we encourage diverse candidates, and candidates from groups that have been underrepresented in the sciences, to apply, including people of color, women, veterans, and individuals with disabilities.
