

ANALYTICAL CHEMISTRY FACULTY POSITION: The Department of Chemistry at the University of Colorado Denver (CU Denver) invites applications for a tenure-track position at the Assistant Professor level to begin August 2020. A Ph.D. in Chemistry or a closely related field is required, and post-doctoral experience is preferred. The successful candidate will be expected to develop an Analytical Chemistry research program that contributes to departmental research strengths, such as Materials Chemistry and Biochemistry. Efforts involving cross-departmental (on both Downtown and Anschutz Medical Campus) and/or community collaborations are strongly encouraged. Teaching both at the undergraduate and graduate level (for the M.S. program) is expected. Full details about the position and our goals can be found at <http://clas.ucdenver.edu/chemistry>. Applicants should submit a letter of interest, CV, the names of three references, and statements outlining research plans and teaching philosophy to posting number 17107 at <https://www.cu.edu/cu-careers/cu-denver>. Applicant review will begin November 1, 2019 and will continue until the position is filled. The Chemistry Department and CU Denver are committed to diversity and equality in education and employment. The University of Colorado Denver requires background investigations for employment.
