The Department of Chemistry at the University of California, Davis (UC Davis) (https://chemistry.ucdavis.edu/about) invites applications for a **UC Davis Schore Teacher-Scholar position** with a starting date of **July 1, 2021**. The prestigious postdoctoral position recognizes Professor Emeritus Neil Schore’s exceptional dedication and contributions to organic chemistry research, teaching, and mentoring as well as his outstanding service to the scientific community. The “Schore Teacher-Scholar” is expected to serve for three-years. The initial appointment is for one year which is subject to renewal for additional two years. Responsibilities include serving as the instructor for two organic lecture courses per year and carrying out cutting-edge research with a sponsoring faculty mentor in the UC Davis Department of Chemistry. Qualified candidates will be recent (within three years) Ph.D. recipients in chemistry and have demonstrated excellence in their previous research and teaching experiences. Candidates’ commitment to providing service to the department, university, and chemistry communities is also expected. The University of California, Davis and the Chemistry Department are interested in candidates who are committed to the highest standards of scholarship and professional activities, and to the development of a campus climate that supports equality and diversity.

All applications must be submitted via UC Davis Academic Recruit at: https://recruit.ucdavis.edu/JPF03952

Candidates should provide a cover letter including the names of three UC Davis Chemistry faculty members whose research is of interest to them; a curriculum vitae; a summary of research accomplishments; a statement of teaching philosophy; a statement of Contributions to diversity, equity, and inclusion; and three letters of recommendation. To assure a full consideration, all application materials and letters should be received by **March 8, 2021**. The candidates are highly encouraged to communicate with potential research sponsors before submitting their applications.

Professor Emeritus Neil Schore has been inspiring students in the organic classroom at UC Davis for over 40 years and is the recipient of numerous teaching awards, including the Phi Beta Kappa Award for Teaching Excellence. He is the co-author of the widely used textbook *Organic Chemistry: Structure and Function*, now in its 8th edition. The Schore Teacher-Scholar is funded in part by a generous donation from Professor Emeritus Schore and his family, reflecting his continued commitment to excellence in chemical instruction and research.
