

Faculty Positions in Chemistry at UNC Chapel Hill

The Department of Chemistry at the University of North Carolina at Chapel Hill invites applications for three faculty positions in all areas of chemistry. Areas of particular interest include analytical, inorganic, and biological chemistry, and we expect to make two appointments at the tenure-track assistant professor level and one appointment at the tenured associate professor level. In the cover letter, applicants should specify which chemistry subfield or combination thereof best represents the applicant's research area. We seek candidates who will establish a vigorous independent research program and excel in teaching at both the graduate and undergraduate levels. The Department and University are broadly committed to equity and inclusion. It is part of our institutional mission to teach and engage a diverse community of undergraduate and graduate students, and postdoctoral scholars. We especially welcome applications from candidates who are committed to advancing these goals espoused here <https://chem.unc.edu/diversity/>. UNC Chapel Hill is an NSF ADVANCE site (<https://cfe.unc.edu/team-advance/>) and the department is committed to strong, formal mentorship for all junior faculty.

Applications will only be accepted electronically. Applicants should submit a cover letter, curriculum vitae, research plan, statements describing the applicant's commitment to teaching excellence and diversity in chemistry, and 2-3 representative publications to:

<https://unc.peopleadmin.com/postings/199939>

Applicants are required to identify the names, titles, email addresses and phone numbers of three professional references when applying. Reference providers identified by the applicant will be contacted via email with instructions for uploading their letters of support. Review of applications will begin October 15, 2021 and will continue until the positions are filled. Questions should be directed to: Chair, Chemistry Faculty Search Committee, Department of Chemistry, University of North Carolina at Chapel Hill, Chapel Hill, NC 27599- 3290, chemsearch@unc.edu. The University of North Carolina at Chapel Hill is an equal opportunity and affirmative action employer. All qualified applicants will receive consideration for employment without regard to age, color, disability, gender, gender expression, gender identity, genetic information, national origin, race, religion, sex, sexual orientation, or status as a protected veteran.
