The Chemistry Program at the University of Illinois Springfield invites applications for two full-time, tenure-track Assistant Professor positions. The Chemistry Program is a unit within the newly formed School of Integrated Sciences, Sustainability and Public Health. The program offers a BS in Biochemistry and an ACS accredited BS in Chemistry. Successful applicants are expected to demonstrate a record of (or potential for) high-quality undergraduate teaching, including the use of student-centered teaching approaches. The two positions are focused on teaching the physical chemistry sequence and health related chemistry sequence respectively and applicants that can contribute to courses in inorganic chemistry, biochemistry, physics and general chemistry are strongly encouraged to apply, with preference given to applicants that are able to contribute to more than one of these areas.

UIS tenure-system faculty are expected to be available and engaged in the campus community, with assigned professional responsibilities for teaching, scholarship, and service. Apart from teaching, candidates will be expected to establish and sustain a research program working with undergraduate students. Service aspects of the position include mentoring our diverse student body and participation in the administrative and governance functions of the program, the University, and the profession as appropriate. A Ph.D. in Chemistry or a related field is required. Documented ability to work in the US is also required. Expected start date is August 16, 2023.

Full descriptions of the positions and application instructions can be accessed at https://uis.csod.com/ux/ats/careersite/1/home?c=uis

The University of Illinois Springfield is an Affirmative Action/Equal Opportunity Employer ensuring equal opportunities in programs, activities, and employment regardless of race, religion, national origin, age, sex, sexual orientation, disability, or veteran status.

About UIS: Located in the state capital, the University of Illinois Springfield is one of three members of the University of Illinois system. The University serves approximately 4,000 students in 21 graduate and 31 undergraduate programs. The academic curriculum offers students a strong liberal arts core, a wide range of professional programs, and close faculty interaction. Making the most of its location in the state capital, UIS is broadly engaged in public policy and service. Its diverse student body includes traditional, non-traditional, and international students. Twenty-five percent of majors are in 17 undergraduate and graduate online degree programs and the campus has received several national awards for its implementation of online learning. UIS faculty are committed teachers, active scholars, and professionals in service to society. The University emphasizes excellence in teaching, and faculty are also expected to provide a balance of scholarship and service activities to meet requirements for tenure and promotion.
