

## Assistant Professor - Career Track (Teaching)

The College of Arts and Sciences at Washington State University invites applications for a fixed-term, full-time, nine-month academic Career-Track position (non-tenure track) at the Assistant Professor level in the Department of Chemistry, starting August 2024. The successful candidate will provide outstanding teaching in introductory and general chemistry, have a passion for teaching, an enthusiasm for innovation in undergraduate chemistry education, and participate in other scholarly and service activities. Other essential responsibilities are to contribute to the Department's efforts to incorporate innovative pedagogies into the general chemistry curriculum and laboratory, work closely with graduate and undergraduate teaching assistants, and advance the college's commitment to diversity and multiculturalism among its faculty, staff, and students.

Applicants should submit their completed application by Sunday, December 3, 2023. Review of the completed applications will begin on **December 4, 2023**, with the committee expecting to make a final decision by February 2024. Apply to the position at [https://wsu.wd5.myworkdayjobs.com/WSU\\_Jobs/job/Pullman-WA/Assistant-Professor---Career-Track--Teaching- R-10672](https://wsu.wd5.myworkdayjobs.com/WSU_Jobs/job/Pullman-WA/Assistant-Professor---Career-Track--Teaching- R-10672). Please upload 1) a cover letter addressing qualifications for this position, 2) a statement of teaching philosophy, 3), a statement of Contribution to Diversity, Equity, and Inclusion, 4) a current curriculum vitae. In addition, please provide contact information for professional references (who can address your history of and potential for excellence in research, teaching, and service (letters will be requested at a later time)). Please see the full Notice of Vacancy at <https://chem.wsu.edu/home-2/employment-opportunities/> before submitting your application materials.
