

**POSITION ANNOUNCEMENT: Tenure-Track Analytical Chemistry
Western Washington University**

WWU invites applications for a tenure-track assistant professor position in analytical chemistry beginning Fall quarter, 2021. The Chemistry Department and the College of Sciences and Engineering support Western's mission, which states that together with our students, staff, and faculty, we are committed to making a positive impact in the state and the world with a shared focus on academic excellence and inclusive achievement. We encourage applications from women, people of color, people with disabilities, veterans, and those with the ability to be sensitive to and inclusive of students with marginalized identities and backgrounds. The successful candidate will be expected to teach analytical chemistry (i.e. quantitative analysis) and instrumental analysis, as well as general chemistry and appropriate special topics courses. The person will also be expected to fulfill working, teaching, and mentoring responsibilities in ways that provide equitable and inclusive environments for all students, faculty, and staff. The successful candidate will be expected to develop and maintain an active research program involving undergraduate and M.S. students.

Please see <https://employment.wvu.edu/en-us/job/498101/assistant-professor-analytical-chemistry> for complete required and preferred qualifications as well as application instructions. Review of applications begins December 15, 2020; position open until filled. Inquiries about the position may be addressed to the search committee co-chair, Prof. Steven Emory, at steven.emory@wwu.edu.
