

## Tentative Workshop Schedule

### 1:00-1:45: 10 Tips for Scholarly Publishing

Have a successful paper submission with our Top 10 Tips for Scholarly Publishing with an ACS Editor.

### 1:45-2:30: Discover Your Career with ChemIDP

This session provides graduate students with a framework for creating an individual development plan using ACS' ChemIDP tool. Key considerations are explored using the ChemIDP tool such as career goals, personal strengths, development areas, which are more.

### 2:30- 3:00: Write it, Speak it: Effective Communications

Effective communication is critical to any scientist's success. Learn how to master both written and oral communication to be able to share your research with a larger non-technical audience.

### 3:15-3:45: Science Policy Fireside Chat

### 3:45-4:45: Beyond the Bench: Exploring Careers Outside of the Lab Coat

This moderated panel discussion will feature speakers from a wide range of chemistry backgrounds and give real-world examples of various career paths.

### 4:45-5:00: ACS Resources to grow your future

This session provides a comprehensive overview of the many benefits and resources ACS offers student members. Career, networking, and other ACS programs are covered in addition to audience-specific resources.
