

Angela Jones has taught Mathematics for more than 22 years in Public and Charter Schools. She earned her Master's degree from the University of Missouri-Kansas City and holds teaching certificates in Missouri and Texas.

In 2012 she invented the G-O-Folio. It is the only patented interactive notebook with folding elements built inside.

Angela's passion is to influence the mathematic mindsets of students positively. She also offers private tutoring services to meet the learner's needs.

Her ability to break math concepts into pieces that can be understood and related to is often described as ingenious. Angela's enthusiasm for math is endless, and she treasures being able to share strategies with educators to inspire them to create experiences and lessons that turn the learning light bulb on for students across the globe
